

ECM3423: Computer Graphics

Final Project - 3D Jurassic Park Scene

submission no #

Code works with no bugs and the result resembles a Jurassic park scene in which dinosaurs wreaking havoc in London city

[mark: /30]

Concepts are implemented properly and demonstrated live in the video.

animated object—

[mark: /10]

lighting and illumination—

[mark: /5]

texture mapping—

[mark: /5]

environment mapping—

[mark: /10]

Demo video satisfies all the conditions mentioned in the project description

[mark: /30]

Code is well documented and efficient

[mark: /5]

Python requirements

[mark: /5]

SUMMARY FEEDBACK:

[FINAL MARK: 0/100]

Important notes:

- No video submission will be equal to a zero mark in this assessment
- For each minute over the 15 minute limit, you will lose 5 marks - e.g. a video 17 minutes long will receive a 10 mark deduction
